

Solercool Hightech Solutions Pvt. Ltd.

Excellence in Freezing Technology

COMPANY PROFILE

The absolute motive of SHSPL's sheer existence since inception has been efficacious customer satisfaction through continuous needs fulfillment. Our envisioned journey humbly began with providing the refrigeration equipment, from its production to its after-sales service. The utmost clear vision is to be a recognized leader in refrigeration technology through indubitable quality, unmatched pricing and prompt service. Customer satisfaction by offering wide product range and all- pervasive service network has always been integral part of our three-tier policy. Our mission has always been to be a frontrunner in total cold chain solutions and its technology with energy saving & eco-friendly products and excellent after sales services.

TOTAL COLD CHAIN SOLUTIONS

Started with providing refrigeration equipment, now Vision Tech has in its basket of offerings, the entire range of temperature management technological solutions essential in complete logistic chain in wide range of industries like Dairy, Fruit Ripening, Food Processing, Agriculture, Frozen Food, Hospitality, Logistics, Bakery, Pharmaceutical, Chemical and what not.

PRE COOLING / MOBILE PRE COOLING

Our forced air cooling chambers are design to extract filed heat from fresh fruits and vegetables. Evaporator units of this chambers are designed to suck cold air through the perforated boxes of commodity so as to attain desired temperature within 3-4 hours.

Decrease in the capacity of refrigeration system of the subsequent cold storage and results in lower initial investments on the cold storage.

COLD ROOM / COLD STORAGE

SHSPL manufacturer and supplies highly efficient Cold Room and Storage which are easy to operate and better in performance. This tailor-made product range is built with premium quality of material in standard size and customised specification to fulfil our customer needs.

TRANSPORT REFRIGERATION

These are the best quality Refrigerated Containers for transportation with temperature (+12° C to -25° C) for all perishable foods on all types of vehicles as small, mini truck, & heavy loading truck. It is featured with low weight, high strength and better insulation.

GRP REFRIGERATED CONTAINER

Heavy Structure with pre-fabricated jointless GRP (GLASS-FIBER REINFORCED PLASTIC) single panel, all side panels & top panels made with wooden structure and bottom panel with metal structure.

GIPP paneled CONTAINER

Heavy Structure with pre-fabricated sandwich panels with cam lock on all sides all panels fit together by cam lock, so container becomes air tight.

EUTECTIC MOBILE CONTAINER

Eutectic Mobile Container is designed for multi-deliveries of Ice cream, Frozen Foods, Bakery Products and Fruits & Vegetables distribution. Features are – minimum Maintenance, no load on vehicle engine, lower operating cost, highly reliable, substantial power saving and no emissions.

SOLAR COOL COLD STORAGE

The innovative Cold Storage powered by solar stand-alone is developed for improving storage quality and reducing wastage of horticulture and floriculture produce requiring a cooling temperature between 0°C to 15°C for safe storage and transient purposes.

SHSPL Solar Cold Room is a Hybrid Cold Room designed to use throughout the year, even in the absence of sunlight by using the alternate power source. The Plug & Play feature makes it portable with no reinstallation cost. Best suited & affordable for farmers, the maintenance cost is very low while operating through solar stand-alone.

BLAST FREEZER AND CHILLER

SHSPL Blast Freezers/Chillers extend the shelf-life of food by instant chilling/freezing. These machines also help maintain food hygiene standards, preserving its quality, and reducing wastage. These machines are handy to organize the operations in hotel- restaurants, confectioneries, bakeries and ice-cream shops.

RIPENING CHAMBER

SHSPL provides most advanced fruits ripening rooms for fruits like mango, banana and papaya.

Features

- Forced draft cooling system for uniform ripening of fruits even in large capacity rooms.
- Blended gas system for the purpose of ripening as per universal standard.
- Unique advantage of controlling ripening cycle from four to fifteen days.
- Precise gas monitoring system for better storage life of the produce.

SILK CELL INCUBATION CHAMBER

SHSPL offers turn-key based and tailor made semi-automated Silk Cell Incubation Chamber.

MUSHROOM GROW CHAMBER

A mushroom grow chamber is an artificial habitat that mimics weather conditions for the mushroom natural eco-system.

INDUSTRIES WE SERVE

Dairy Product Industry

Ice Cream Industry

Food Processing Industry

Agro Industry

Horticulture / Floriculture Industry

Hotel / Restaurant

Retail Outlet for Dairy - Ice Cream

Hospitality Industry

Pharmaceutical Industry

Plastic Industry

Chemical Processing Industry

Biological / Research

Logistic

Seed Industry

Renewable Energy Industries
